I'm a Web Developer with a strong background in MERN stack technologies, skilled in both front-end and back-end development. I excel at enhancing user experiences, optimizing web performance, and integrating third-party APIs. I thrive in solving complex challenges and delivering innovative solutions that drive business success.

WORK EXPERIENCE

Full stack Developer - MERN

11/ 2023 to 10/ 2024
PH Virtual Tech
Davao City

- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Developed custom web applications, resulting in tailored solutions for client needs.
- Integrated third-party APIs to extend application functionalities, offering users more comprehensive experience.
- Developed user-friendly web forms with validation and error handling.
- Planned and engineered RESTful web services to manipulate dynamic datasets.

Freelancer (MERN Web Developer)

04/ 2022 to 11/ 2023
Freelancing
Davao City

- Negotiated contracts with both clients and vendors effectively, ensuring mutually-beneficial terms were agreed upon.
- Developed custom web solutions for clients, increasing user engagement and customer satisfaction.
- Conducted quality assurance testing across multiple websites to verify compatibility across different browsers and ensure optimal responsiveness on mobile devices.

SKILLS

- JavaScript / Typescript
- Node.js (Express.js)
- React JS / React Native
- CSS (Tailwind, MUI)
- Amazon Web Services (EC2, CodePipeline)
- Databases (MongoDB, MySQL)
- API Integration (Rest API)
- Debugging and testing
- Teamwork and Collaboration

EDUCATION

University of Mindanao, Philippines

Bachelor's

2024

Information Technology

Davao City
